About Me

. With a solid foundation in programming languages, algorithms, and data structures, I've been able to tackle various projects that have honed my skills. My coursework has provided me with a comprehensive understanding of software engineering principles, and I've had the opportunity to work on real-world applications through internships and collaborative projects. Additionally, I'm always eager to learn and adapt to new technologies, which keeps me at the forefront of the rapidly evolving tech landscape. I am excited to contribute my skills and enthusiasm to a dynamic team, where I can continue to grow and make a meaningful impact.

Experience

From designing intuitive user interfaces to optimizing app performance, I enjoy the challenge of creating seamless digital experiences. Whether it's brainstorming innovative features or troubleshooting technical issues, I'm always eager to learn and adapt to the ever-evolving world of technology. Collaborating with teams to bring ideas to life is one of the most rewarding aspects of my work, and I'm constantly inspired by the potential of apps to make everyday tasks more efficient and enjoyable.

Education

School Of Aygoda
Expertise in Software Development
2022

Completed coursework in algorithms, data structures, and software engineering principles.
Engaged in group projects that emphasized collaborative learning and innovative problem-solving.

Skills

Language

Amharic
English

- Programming Languages: Python, Java, JavaScript
- Frameworks: React, TensorFlow
- Tools: Git, Figma, Visual Studio Code
